Tough and Resilient

Made from tough revulcanized tire rubber. Works as hard as you do in all weather and sea conditions.

Interlocking – Removable – Reusable

Interlocking mats lock together to form a unitary deck cover, but allows you to unlock and remove them over and over for cleaning or to replace worn or damaged pieces.

Ergonomic

Increases comfort, reduces fatigue and worker's compensation claims. Ergonomic design absorbs impact and vibration. Ergonomically Correct softness to increase comfort and reduce joint, muscle and tendon problems. Increased comfort yields improved productivity and alertness – reduces injuries.

Deck Safety

Anti-Slip design and material improves traction, reduces slips and falls. Helps gear stay where you put it. Fewer injuries from sliding gear.
